

11 Big Wins for Nuclear Energy in 2024

Dec 30, 2024

Did nuclear power just have its best year ever?

From welcoming a new reactor online for a second straight year to seeing two retired units pursuing historic restarts, nuclear power is definitely making a comeback in the United States.

Here are 11 BIG wins in 2024 that the U.S. nuclear sector can build upon in the new year:
